

New Service Advisor Orientation & Training

Welcome to the <INSERT DEALERSHIP NAME> Family

Orientation Overview

As a new member of the family, you will be introduced to all key departments and resources essential for your success as a Service Advisor. This orientation and training program will ensure you are well-prepared to support our customers and team.

Department Introductions

- ☐ Service Department: Overview of roles, processes, and expectations.
- ☐ Parts Department: Introduction to parts operations and collaboration with service.
- ☐ Sales: Understanding the relationship between sales and service.
- ☐ Office: Key office functions and support resources.

OEM Job-Specific Training Requirements

- ☐ Online (e-learning): Completion of OEM Virtual Academy modules.
- ☐ Instructor Workshop Led: Participation in hands-on workshops for core service advisor responsibilities.
- ☐ DMS Training: Using the Dealer Management System (DMS) for daily operations.
- ☐ Manuals & Logins: Accessing and navigating both Dealer and OEM manuals and systems.

OEM Policies & Procedures

- ☐ Warranty: Understanding requirements for service advisors, technicians, and warranty administrators.
- ☐ Claims Process: Handling both OEM and aftermarket claims effectively.
- ☐ Service Communications: Managing open recalls, campaigns, and service actions.

Dealership Service Department Policies & Procedures

- ☐ New Employee Handbook: Familiarization with department procedures and expectations.
- ☐ Customer Communication Expectations: Guidelines for professional and effective customer interactions.
- ☐ Internal Communication Expectations: Best practices for in-house communication.
- ☐ OSHA Compliance: Adhering to health and safety regulations.

Appointment Process

- ☐ Scheduling appointments by phone, online, or walk-in.
- ☐ Practicing effective phone etiquette and “we-owe” documentation.
- ☐ Applying proper email etiquette and understanding legal requirements.

OEM Service & Parts Department Operating Standards

- ☐ Fulfilling OEM-specific operating standards.
- ☐ Participating in dealer and OEM service drive marketing initiatives, including national promotions and dealership website promotions.
- ☐ Understanding Tire Sales and Dealer Tire Systems & Processes.

Service Road to the Sale

1. Introduction and Welcome
2. Vehicle Walkaround
3. Vehicle Write-Up
4. Complaint, Cause, & Correction
5. Quality Control Checks
6. Vehicle Delivery
7. Utilizing recommended word tracks, selling skills, and strategies for overcoming objections.
8. Communicating the Feature/Advantage/Benefit of dealership services versus independent repair facilities.
9. Explaining the value of OEM genuine parts compared to aftermarket parts and effectively presenting the dealership's value proposition to customers.
10. Following up on declined recommendations to ensure customer satisfaction and retention.

Multi-Point Inspections (MPI)

- ☐ Service advisor and technician roles in MPI.
- ☐ Understanding and presenting flat rate times.
- ☐ Measuring productivity, proficiency, and efficiency.
- ☐ Explaining and applying diagnostic fees.
- ☐ Presenting MPIs and selling additional recommended services (ASRs) both face-to-face and over the phone.
- ☐ Declined services follow-up.
- ☐ Coordinating timing between technicians and service advisors.
- ☐ Managing preauthorization processes for both OEM requirements and dealership customer pay scenarios.

Alternate Transportation Options

- ☐ Coordinating shuttle and rental vehicle options for customers.

Cashiering

- ☐ Handling payments via cashier, credit card, cash, and self-cashiering as a service advisor.

Customer Satisfaction Survey

- ☐ Understanding and adhering to OEM policies and procedures regarding customer satisfaction surveys.
- ☐ Maintaining survey integrity in every customer interaction.

Service Department Overview

- ☐ Getting to know the technicians and shop loading and dispatch processes.
- ☐ Managing sublet work and adhering to policy and discounting guidelines.
- ☐ Understanding the repair order process, including keeping and closing orders, and fixed operations cashflow/accounting essentials for service advisors.

Parts Department Overview

- ☐ Understanding high-level parts department operations.
- ☐ Explaining the value of OEM parts versus aftermarket options.
- ☐ Comprehending special order parts requirements for warranty, customer pay, and internal scenarios.
